TEXAS | SOLRITE VIRTUAL POWER PLANT

BE THE POWER PLANT PRO

You're not selling solar. You're inviting a neighbor into something bigger than their roof. **Teach. Don't pitch.**

12.9¢	2.9%	25 yrs	60 kWh
per kWh all-in (about 7¢ energy + 5.9¢ delivery)	annual escalator	monitoring, maintenance, repairs and upgrades included	Sonnen or Duracell battery

Essential-load backup • Up to 120% offset • 620+ credit • 1,000+ sun hours • Approved deregulated markets

THE 10-STEP CONVERSATION: FROM HELLO TO ENROLLED

TEACH

1. **Introduce yourself** as a Program Educator.
2. **Create the problem:** rising rates, aging infrastructure.
3. **Introduce the solution:** the Virtual Power Plant.
4. **The exchange:** space and participation for lower rates and backup.
5. **How it works:** batteries charge at low demand and support the grid at peak.

QUALIFY AND ENROLL

6. **The economics:** Solrite owns the batteries. Answer "what's the catch?"
7. **Qualify:** confirm interest, verify identity.
8. **Solrite Power Plus,** if they're eligible.
9. **Review the agreement** and remove the risk.
10. **Enroll.** Then explain next steps: Welcome Call, Site Survey, Engineering, Installation.

POWER MOVES AND PENALTY FLAGS

POWER MOVES

- Show their numbers from the SubHub proposal.
- Say there is **no guarantee of a $0 utility bill**.
- Explain that Solrite owns and runs the equipment.

PENALTY FLAGS

- Promising a $0 bill, unlimited power or a savings percentage.
- Hinting you represent the utility.
- Coaching the homeowner on the welcome call.

"WHAT'S THE CATCH?" "Solrite owns and runs the batteries. You get the program rate and the backup. You pay for the contracted production, and you may still have some utility charges."

TEXAS | ENROLL IT CLEAN

WIN THE WHOLE PLAY

A signed contract is not the finish line. Finish all six steps before you leave the driveway.

THE SIX-STEP PLAY IN SUBHUB

1 Prove ownership

Run the title check. **Uncheck** "Continue With Existing Name," then click **Replace**.

LLC? Upload the ownership documents.

2 Qualify

Soft credit check. Minimum score **620**.

Frozen credit? It may need a temporary unfreeze.

3 Sign

You sign first, then the homeowner.

Check every required signature.

4 Upload the bill

Front, back and usage graph.

Billed-month kWh must match SubHub exactly.

5 AI Welcome Call

Homeowner alone, on camera, answering aloud and on screen.

Never coach or answer for them.

6 Billing profile

ACH: no added charge. Card: **+$15 a month**.

Stripe Success is not the finish. Click **Back to Solrite Electric LLC**, then **Add**.

6 FOR 6. Don't leave the driveway until every box is checked.

- ○ Homeowner qualified
- ○ Title verified
- ○ Contract signed
- ○ Utility bill uploaded
- ○ Welcome Call complete
- ○ Billing profile complete

BEFORE THE WELCOME CALL

- Review the welcome call questions with them first. They must answer on their own.
- Quiet room, camera on. If someone interrupts, cancel and start over.
- After the last question, click Start Upload and wait for it to finish.

NEED HELP? SunPower Sales Support: **salessupport@sunpower.com**

THEN SOLRITE PARTNER SUPPORT: call **877-705-2009** | email **partner.support@solriteenergy.com**

TEXAS | YOUR PATH

SELLING WITH SOLRITE

Your path from first day to first commission check.

01 Get set up

1 Onboard

Complete onboarding in Enzy with Sales HR.

2 Get your logins

Once you're approved, Sales Support sets up your SubcontractorHub and Solrite access.

3 Complete training

Work through the VPP training materials in Ignite and Solrite.

02 Sell

4 Knock and book

Canvass in Enzy. Put every new lead on the calendar.

5 Build the proposal

Create the proposal in SubcontractorHub.

6 Close the deal

Once it's sold, the deal moves into Salesforce automatically.

03 After the sale

7 Site survey

SunPower's Site Survey team schedules it with your customer.

8 Deal moves to install

Runs like a standard direct deal. Full steps coming from the Direct team.

9 Track your deal

Follow progress in Merdeka. Your CSM is there if you need help.

10 Get paid

When the deal is commissionable, Commissions processes your pay.

NEED HELP? SunPower Sales Support: **salessupport@sunpower.com**

THEN SOLRITE PARTNER SUPPORT: call **877-705-2009** | email **partner.support@solriteenergy.com**

TEXAS | HOUSTON TALK TRACK

WIN THE HOUSTON DOOR

Setters book the appointment. Closers teach first, then enroll.

PRO TIP: Texans already shop for electricity. You're showing them a better way to buy it. Compare 12.9¢ all-in to their actual effective rate, not an advertised rate that leaves out delivery.

TWO JOBS. ONE GOAL.

SETTERS

Win the door. Book the appointment.

"Hey, we're out educating homeowners about a Virtual Power Plant program now available in your area. Have you seen the news about data centers putting more pressure on the Texas grid?"

"Homes that qualify get a discounted electricity plan and backup power if the grid goes down. Would that be of interest?"

"A program educator will be in your area tonight or tomorrow. Which works better for you?"

- **Tough question?** "I'm not the specialist, but they'll walk you through that."
- **Always offer a window:** "between 6 and 8." Confirm name, address, phone and that decision-makers will be there.

CLOSERS

Teach first. Then enroll.

1. **Energy independence.** Say "reduced dependence," not "off the grid."
2. **Storm protection.** Essential-load backup. Never promise unlimited power.
3. **Savings.** Use their SubHub proposal and actual bill. No generic percentages.

THE ASK: "Would the savings and backup be worth seeing whether your home qualifies?"
